

Roster Select Team Policy

The NDMHA recognizes on occasion players and parents may wish to form an additional team for the purposes of enriching their hockey experience and providing opportunity for further skill development beyond the traditional houseleague program. These teams will be formed according to the OMHA regulations regarding Rostered Select Teams which can be found in the OMHA Manual of Operations section 4.4. Select teams shall be registered with the OMHA on CHA rosters and shall be operated in strict accordance with OMHA regulations, NDMHA constitution, by law and resolutions of the executive committee.

Application to form a Rostered Select Team must be submitted to the NDMHA executive in writing and will not be accepted before October 15 in any given season and decisions regarding approval of the team will be made at the following board meeting. No action shall be taken by any NDMHA member to organize a select team prior to the formation of house league teams. Only one Rostered Select Team per division will be approved in any one season. Application must include a certified coach and trainer to be considered. Participation on a Roster Select Team is in addition to the regular houseleague game and practice schedule and may therefore incur additional cost to the player. There is no obligation of NDMHA to provide ice time or game officials to the Roster Select Team, however NDMHA may choose to do so if resources are available.

Select Team Rosters must be submitted to the REM via the NDMHA Registrar for approval prior to participation in any exhibition games or tournaments. OMHA residency regulations apply to Rostered Select Teams. It should be noted that participation on a Rostered Select Team is not considered an OMHA affiliation and therefore does not preclude participation on AP rosters of representative teams within our organization. A player may play on a Rostered Select Team provided all house league commitments are met first. If a player misses his/her or house league activity earlier in the day they are not eligible to participate for the Roster Select Team, which they are affiliated with later that day. Any breach of this policy will result in the player being removed from the Rostered Select Team. All guidelines applicable in the NDMHA AP policy apply to Select team players.

As per the OMHA policy the number of exhibition games allowed is two (2) per month and the number of tournaments allowed is three (3) per season. Any request for adjustments or amendments for more than these numbers must be submitted to the NDMHA OMHA Centre Contact or President who will forward it for approval in writing by the Regional Executive Member or OMHA appointed Convenor.

To be considered OMHA sanctioned events, to ensure insurance coverage for participants, requests for participation in practices, exhibition games, sanctioned tournaments or other events must be submitted on the Select Team Event Form to the NDMHA Centre Contact or President and will be copied to the REM for approval prior to participation.

Any breach of this policy may result in the Roster Select Team's suspension from further events.
